| Reasons for comment: | - Design |
| Comments: | Overbearing<br>We are concerned that the proposed extension to 4 Ellis Road will be overbearing. The dimensions of the proposed extension and position against the boundary will cause the only side of our garden which is currently not bordered by brick walls to be predominantly bordered by the proposed extension, meaning our garden will be almost entirely surrounded by walls, feeling enclosed. The proximity to the property boundary will also make the wall feel very imposing in the garden.<br><br>Loss of light<br>We are concerned that the proposed extension will cause a loss of light to our living room. It is not clear what the final height of the proposed extension will be but we are concerned that given the proximity of the proposed position to the property boundary, this will mean a considerable loss of daylight coming into our living room from the north east elevation. |

Kind regards
