Tree Report **Date** 28/01/2025

Company Name: Paul Goldring Tree Surgery
Dukes Cottage, School Hill, Storrington, West Sussex RH20 4NB
[redacted] [redacted]

Location of Trees: Storrington Tennis Club, Greyfriars lane, Church Street, Storrington, RH20 4HE
Ref No:

Type of Trees: Lime (Tilia x europaea)

DBH: (Diameter at base height) : T1 792 mm
T2 624 mm
T3 814 mm

Height: 20 metres
Spread of Tree: 7-9 metres

Tree Description:

Healthy mature line of Trees been previously reduced many times over the years.
Minimal dead wood outer two Trees have some Ivy that has been cut at bottom.
Signs of previous pruning cuts around lower trunks with decay and healthy callus around edge.
Epicormic growth up to 4 - 5 metres from ground.

Recomendations:

I recommend the Trees to be Pollarded to previous cuts and epicormic growth removed, This will rejuvenate the Trees and remove branches that can potentially snap off.
