### Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	<ul style="list-style-type: none"><li>- Design</li><li>- Highway Access and Parking</li><li>- Loss of General Amenity</li><li>- Overdevelopment</li></ul>
Comments:	<p>Key Reasons for Objection</p> <p>* Against the Neighbourhood Plan &amp; Parish Council Objection:</p> <p>The site was not allocated for development in the community-approved Neighbourhood Plan, and the Parish Council objects to the planning application. The proposal undermines the democratic plan the community and residents worked hard to create.</p> <p>* Flood Risk: The site lies on an area already prone to flooding.</p>

Building over open lands will increase surface water run-off, threatening nearby homes and roads.

- \* Environmental impact: The site supports protected species. Development would destroy valuable habitats and green corridors vital for local wildlife.
- \* Sewage and Utilities: Southern Water confirmed that there is currently no capacity in the local sewage network. They object to this development. Additional connections could lead to overflow, pollution, and public health risks..
- \* Traffic and infrastructure: The developer's traffic forecast is flawed and underestimates the impact. Rectory Lane is narrow and unsuitable for the increased traffic this development would generate Local roads, schools, GP services, and parking are already at capacity

---

Kind regards
