

Geo-Environmental  
Sussex

Published 1875

Source map scale - 1:2,500

The historical maps shown were reproduced from maps predominantly held at the scale adopted for England, Wales and Scotland in the 1840's. In 1854 the 1:2,500 scale was adopted for mapping urban areas and by 1896 it covered the whole of what were considered to be the cultivated parts of Great Britain. The published date given below is often some years later than the surveyed date. Before 1938, all OS maps were based on the Cassini Projection, with independent surveys of a single county or group of counties, giving rise to significant inaccuracies in outlying areas.

## Geo-Environmental Supply of Unpublished Survey Information

Published 1974

Source map scale - 1:2,500

SUSI maps (Supply of Unpublished Survey Information) were produced between 1972 and 1977, mainly for internal use at Ordnance Survey. These were more of a 'work-in-progress' plan as they showed updates of individual areas on a map. These maps were unpublished, and they do not represent a single moment in time. They were produced at both 1:2,500 and 1:1,250 scales.

<b>Project Name</b>	Pondtail Farm, Horsham	<b>Project Number</b>				
		GE 17826				
Plate 10	<b>Date</b>					
November 2018						
 A photograph showing a dense thicket of bare trees and branches. In the center-left, there is a large, disorganized pile of discarded materials, including what appears to be corrugated metal sheets and plastic containers. The ground is covered with fallen brown leaves. The date '23/11/2018 10:06' is overlaid in the bottom right corner of the image.						
<b>Subject</b>	Record photographs	<b>Date Photograph taken</b>	23 <sup>rd</sup> November 2018			
<b>Location</b>	Site					
<b>Purpose of photograph / aspects of interest</b>						
Displays area of dumped waste just off site to the north made up of mainly building material (roof panels and plastic). Puddling in this area.
