| Comments: | <p>This application has been refused and should be refused again. The application is out of pure greed. Building stables that have never been used just to demolish and then build a house to get round the rules should be reason enough to refuse it. The fact that the owners have no regard for the countryside or their surroundings. Every project they start they never finish. The whole plot is a dumping ground for building materials. These building materials are seeping toxins and poisons into the ground. Mutton's Lane is a small country lane that does not need more</p> |

housing. The road could not sustain the lorry's needed to build a property.

Kind regards
