Subject: Objection DC/25/2104 Winston's Farm

We strongly object to the planning application DC/25/2104 to demolish stables and build a house for the following reason's;

1. It is outside of the built up area within a rural setting adjacent to a listed property. The scale and design of the proposed property is totally disproportionate to the site.
2. It is not a working farm and has not been so for many, many years and therefore there is no need of accommodation for rural workers. The
3. Having had planning refused in 2017 for a dwelling on the site, the stables were subsequently built with the sole purpose of future conversion. Planning was again refused earlier this year and dismissed at appeal. The lifting of the water neutrality restrictions is no reason to permit this planning.
