### Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	<ul style="list-style-type: none"><li>- Highway Access and Parking</li><li>- Loss of General Amenity</li><li>- Overdevelopment</li></ul>
Comments:	The application represents overdevelopment of the site of a single, smaller property, which would harm the special character of the Heath Common area, contrary to the Heath Common Design Statement (an adopted supplementary planning document), and also the Storrington, Sullington and Washington Neighbourhood Plan.

The existing property is served by a single shared narrow track

which has a blind junction onto Hampers Lane. This is unsuitable both for the volume of construction traffic required by such a significant development, and the inevitable number of vehicles subsequently accessing the two large properties proposed. The response from WSCC Highways is poorly presented and negligent in this respect.

---

Kind regards
