| Comments: | I object to the building of 160 homes on this area which was predominantly green field land. There will be a vast increase in light and noise pollution, detrimentally effecting local wildlife, flora |

and fauna and the quality of life for local residents who live in the vicinity. Broomers Hill Lane is a rural landscape with views to the North and South downs. This development will scar views from the South Downs and change the landscape for residents who purchased their rural homes, not for it then to become an urban landscape. When there is so much emphasis on protection, regeneration and re-wilding of our countryside, how can this development even be a sane consideration? At what point do those with the power to say no, use that power for the good of our planet.

Kind regards
