Dear Emma Parkes and Hannah Darley

I am a resident of Rowlands Road, although you did not contact me regarding the above plans to build a bungalow on the area of Amberley Road Playing Fields.

I overlook the car park area and would like to strongly object to this building. It is already virtually impossible to park in this area due to all the excess cars now that most properties have 2 or more cars so I fear the problem will be far worse with the extra potential 3 bedroom bungalow having several cars. There will be nowhere for the building site deliveries to go, or workers vehicles either. Also, the access road to the garages which is used as a turnaround for all delivery vehicles is already destroyed with large potholes and totally disintergeating and cannot take anymore.

I see many people walking pass my bungalow from the surrounding neighborhood on their way to the park and know this will be a disruption to them all.

The dust and dirt created will be a hazard, [REDACTED] dog walkers who will be put at risk with a building site on the pedestrian access to the area.

The local residents directly overlooking this building will have their view completely obliterated and this cannot be acceptable for both people that have lived there for many years, or the newer occupants that bought their houses for their family's long term future. That's before you even consider the devaluation of the properties that would lose their views.

[REDACTED]

Please take my opinions seriously and reject these plans on behalf of our community.

Thank you in advance
