Subject: [REDACTED] Application ref no DC/25/1312. Land West of Ifield
Categories: Comments Received

My husband and I are have been members of Ifield Gold Club since 1988. The Club itself is soon to celebrate it's centenary and is always busy with around 500 members participating in competitions and events, hosting other local Clubs and Societies and providing the needs of both young and old. The course itself is a picturesque haven for wildlife which happily lives alongside we golfers. There is also a footpath which crosses part of the course and is much used by local dog-walkers.

This planning application proposes to close our Course with no alternative provision for our members in order to build houses which will likely be unaffordable for local people.

We strongly object to this proposal on the above grounds
