Ref: DC/25/1312

DC/25/1312 OBJECTION TO WEST OF IFIELD

The west of Ifield plan is to deliver 3,000 home of which 35% will be affordable.

A development of 10 houses or more also requires to be 35% affordable.

50% of affordable housing on such a large site should be considered.

The private rent in this area far exceeds the amount that most people on Crawley's and Horsham's housing list can afford therefore social rent of 50% of the going rate should be built.
