Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	- Other
Comments:	<p>The outstanding quality of the improvements already made to this estate over recent years leads me to have confidence that any future development will be undertaken with the closest attention to detail, to the conservation of the natural and built environment, to the visual and ecological impact, the safety of visitors and workers and the effect upon the local community. I applaud improvements to the accessibility of the site and its facilities to people with disabilities and believe that the overwhelming advantages of the planned improvements will be positive.</p>

---

Kind regards
