

Table 1

Averys hla 611 PS01 (see Generic Planting Plan, hla 611 03)					
Planting Schedule					
Rabbit proof protection to be implemented as instructed by the Client					
No	Species	Stock Size Trees/Specimen Shrubs as stated or (height in mm or as pot size in l (litres))	Density No of plants per m ² (spacing in mm)	Plant supply type (Rootballed, container grown or bare root)	Management comments (>15cm = maximum height, S = Sun, PS = Partial shade Sh = Shade)
					All plant beds should be weeded annually and receive fertiliser and ameliorates as necessary for each plant and soil condition.
Proposed native Selected Standard Trees					General tree management: Ties and stakes should be checked annually and loosened or removed to suit each tree. There will be some leaf drop (from the deciduous plants) each year and this should be removed to a mulch area.
	All trees to have canopies 2m above ground level for safe open views				
1	Acer campestre (Field Maple)	10-12cm girth (height 2 to 3m), Selected standard	To be shown in proposed detail	Bare root	Deciduous medium-sized deciduous tree with a compact bushy crown. Leaves with 5 blunt lobes, turning yellow or red in the autumn. Flowers small, green, forming typical winged maple fruits. Car park species (>12m S PS)
3	Betula utilis 'Jaquemontii' (West Himalayan Birch)	10-12cm girth (height 2 to 3m), Selected standard	As shown	Bare root	A vigorous deciduous tree, with brilliant white bark on the trunk and larger branches; ovate leaves turn yellow in autumn; yellow-brown male catkins to 12cm long open in early spring (18m S PS)
2	Crataegus monogyna (Common Hawthorn)	10-12cm girth (height 2 to 3m), Selected standard	To be shown in proposed detail	Bare root	A rounded deciduous tree to about 10m in height, with thorny branches and glossy, deeply lobed dark green leaves, colouring gold in autumn. Flat sprays of fragrant, creamy-white flowers with pink anthers, are produced in late spring, followed by plentiful dark red edible berries in autumn. The fruit can be made into jellies or used for making herbal tea (>8m S PS)
1	Corylus avellana (Common Hazel)	10-12cm girth (height 2 to 3m), Selected standard	To be shown in proposed detail	Bare root	Large, deciduous shrub or small multi-stemmed tree, about 6m tall, with rounded mid-green leaves turning yellow in autumn, and yellow male catkins to 6cm long in early spring, followed by edible nuts in autumn (4-8m S PS)

Averys hla 611 PS01 (see Generic Planting Plan, hla 611 03)					
Native Scrub	All to be staked and have rabbit proof guards.				General tree and scrub management: Ties and stakes should be checked annually and loosened or removed to suit each tree. There will be some leaf drop (from the deciduous plants) each year and this should be removed to a mulch area. All plant beds should be weeded annually and receive fertiliser and ameliorates as necessary for each plant and soil condition.
18	<i>Buddleia alternifolia</i> (Alternate-leaved Butterfly Bush)	900-1200mm	1 (1000)	Bare rooted	A vigorous large deciduous shrub which can be trained into a small tree, with arching branches bearing narrow, grey-green leaves and sweetly scented lilac-purple flowers, borne in clusters along the previous year's shoots. S/PS Ultimate height >4m
18	<i>Cornus sanguinea</i> (Common Dogwood)	900-1200mm	1 (1000)	Bare rooted	Deciduous shrubs woody-based perennial with brightly coloured young stems. Tiny flowers are borne in dense clusters with showy bracts. Fine autumn colour. Prune each year to produce vigorous colourful young shoots will help to keep the shrub compact. S/PS Ultimate height 1.5-2m
18	<i>Euonymus fortunes</i> (Spindle)	900-1200mm	1 (1000)	Bare rooted	Vigorous, spreading deciduous shrub or small tree to 3m, with narrowly ovate leaves turning pink or red in autumn, and panicles of small greenish-white flowers followed by 4-lobed red fruits which split to reveal orange seeds. S/PS Ultimate height > 4m
18	<i>Ligustrum vulgare</i> (Wild Privet)	7.5l pot size (height 900-1200mm), Leader and laterals	1 (1000)	Container grown	A bushy, deciduous or semi-evergreen shrub with dark green, lance-shaped leaves and terminal panicles of small, white, pungently-scented flowers in summer, followed by small, shining black berries. S/PS. Ultimate height > 4m
18	<i>Lonicera periclymenum</i> (Honeysuckle)	2.5l pot size (spread 750-900mm) Several shoots	1 (1000)	Bare rooted	A large deciduous tree developing a magnificent, broad crown, the leaves with shallow, rounded lobes, turning reddish-brown in autumn. Inconspicuous yellow-green catkins among the young leaves. Prune after flowering. S/PS Ultimate height 4- 8m.
18	<i>Prunus spinosa</i> (Blackthorn)	600-900mm	1 (1000)	Bare root	Deciduous spreading medium-sized deciduous tree with profuse, pure white double flowers in pendulous clusters. Leaves green, turning red and orange in autumn. (8-12m S)
18	<i>Taxus baccata</i> (Common Yew)	600-900mm	1 (1000)	Container grown	Small evergreen tree of rounded habit, with dense, linear leaves, insignificant flowers and, on female plants, conspicuous fleshy red arils surrounding the solitary seeds. No regular pruning necessary, but can be trimmed and shaped when required. S/PS/Sh Ultimate height 4- 8m
18	<i>Viburnum lantana</i> (Common Wayfaring Tree)	600-900mm	1 (1000)	Container grown	A vigorous, deciduous shrub to about 5m in height, with finely toothed, broadly ovate grey-green leaves to 12cm long, and domed clusters of small tubular white flowers in late spring, followed by oval to rounded red fruits which ripen to black. S/PS. Ultimate height >4m

Averys hla 611 PS01 (see Generic Planting Plan, hla 611 03)					
18	<i>Viburnum opulus</i> (Viburnum)	600-900mm	1 (1000)	Bare rooted	Deciduous shrub with opposite, palmately lobed leaves and clusters of small, often fragrant white or pink flowers, followed by red, blue or black berries. Fine autumn colour. Prune after flowering. S/PS/Sh Ultimate height 1-1.5m
Native Hedge	All to be staked and have rabbit proof guards.				General hedge management: Ties and stakes should be checked annually and loosened or removed to suit each tree. There will be some leaf drop (from the deciduous plants) each year and this should be removed to a mulch area. All plant beds should be weeded annually and receive fertiliser and ameliorates as necessary for each plant and soil condition.
10	<i>Acer campestre</i> (Field Maple)	900-1200mm	1 (1000)	Bare rooted	Deciduous medium-sized deciduous tree with a compact bushy crown. Leaves with 5 blunt lobes, turning yellow or red in the autumn. Flowers small, green, forming typical winged maple fruits. Car park species (>12m S PS)
10	<i>Cornus sanguinea</i> (Common Dogwood)	900-1200mm	1 (1000)	Bare rooted	Deciduous shrubs woody-based perennial with brightly coloured young stems. Tiny flowers are borne in dense clusters with showy bracts. Fine autumn colour. Prune each year to produce vigorous colourful young shoots will help to keep the shrub compact. S/PS Ultimate height 1.5-2m
10	<i>Euonymus fortunei</i> (Spindle)	900-1200mm	1 (1000)	Bare rooted	Vigorous, spreading deciduous shrub or small tree to 3m, with narrowly ovate leaves turning pink or red in autumn, and panicles of small greenish-white flowers followed by 4-lobed red fruits which split to reveal orange seeds. S/PS Ultimate height > 4m
10	<i>Ligustrum vulgare</i> (Wild Privet)	7.5l pot size (height 900-1200mm), Leader and laterals	1 (1000)	Container grown	A bushy, deciduous or semi-evergreen shrub with dark green, lance-shaped leaves and terminal panicles of small, white, pungently-scented flowers in summer, followed by small, shining black berries. S/PS. Ultimate height > 4m
10	<i>Lonicera periclymenum</i> (Honeysuckle)	2.5l pot size (spread 750-900mm) Several shoots	1 (1000)	Bare rooted	A large deciduous tree developing a magnificent, broad crown, the leaves with shallow, rounded lobes, turning reddish-brown in autumn. Inconspicuous yellow-green catkins among the young leaves. Prune after flowering. S/PS Ultimate height 4- 8m.
10	<i>Prunus spinosa</i> (Blackthorn)	600-900mm	1 (1000)	Bare root	Deciduous spreading medium-sized deciduous tree with profuse, pure white double flowers in pendulous clusters. Leaves green, turning red and orange in autumn. (8-12m S)
10	<i>Taxus baccata</i> (Common Yew)	600-900mm	1 (1000)	Container grown	Small evergreen tree of rounded habit, with dense, linear leaves, insignificant flowers and, on female plants, conspicuous fleshy red arils surrounding the solitary seeds. No regular pruning necessary, but can be trimmed and shaped when required. S/PS/Sh Ultimate height 4- 8m

Averys hla 611 PS01 (see Generic Planting Plan, hla 611 03)					
10	Viburnum lantana (Common Wayfaring Tree)	600-900mm	1 (1000)	Container grown	A vigorous, deciduous shrub to about 5m in height, with finely toothed, broadly ovate grey-green leaves to 12cm long, and domed clusters of small tubular white flowers in late spring, followed by oval to rounded red fruits which ripen to black. S/PS. Ultimate height >4m
10	Viburnum opulus (Viburnum)	600-900mm	1 (1000)	Bare rooted	Deciduous shrub with opposite, palmately lobed leaves and clusters of small, often fragrant white or pink flowers, followed by red, blue or black berries. Fine autumn colour. Prune after flowering. S/PS/Sh Ultimate height 1-1.5m
Native Understorey	All to be staked and have rabbit proof guards.				General tree, shrubs and ground cover management: Ties and stakes should be checked annually and loosened or removed to suit each tree. There will be some leaf drop (from the deciduous plants) each year and this should be removed to a mulch area. All plant beds should be weeded annually and receive fertiliser and ameliorates as necessary for each plant and soil condition.
9	Euphorbia amygdaloides 'Robbiae' (Mrs Robb's Bonnet)	300-450mm	1 (1000)	Bare rooted	A spreading evergreen perennial to 50cm in height, forming colonies of rosettes of oblong, dark green leaves from which arise large rounded sprays of yellow-green flowers. S/PS/Sh Ultimate height >0.5m
9	Dryopteris filix femina (Lady Fern)	300-450mm	1 (1000)	Bare rooted	A vigorous, deciduous fern to 80cm or more, forming a clump of fresh-green, lacy, bipinnate, lance-shaped fronds, the segments with toothed margins. In some plants the midrib is red, in others green. S/Sh Ultimate height > 1m
9	Ligustrum vulgare (Wild Privet)	7.5l pot size (height 900-1200mm), Leader and laterals	1 (1000)	Container grown	A bushy, deciduous or semi-evergreen shrub with dark green, lance-shaped leaves and terminal panicles of small, white, pungently-scented flowers in summer, followed by small, shining black berries. S/PS. Ultimate height > 4m
9	Hedera helix (Common Ivy)	350-500mm	1 (1000)	Bare root	A vigorous, self-clinging climber with three- to five-lobed, glossy, evergreen leaves, often with pale green veins, and some reddish or bronzy colours in autumn. Mature plants produce bushy, non-clinging branches with diamond-shaped leaves, and small, nectar-rich, greenish-yellow flowers in clusters of rounded heads in autumn, followed by black berries in winter. An important wildlife plant, providing food, shelter and nest sites for many birds, insects and small mammals. S/PS. Ultimate height > 12m
9	Lonicera periclymenum (Honeysuckle)	2.5l pot size (spread 750-900mm) Several shoots	1 (1000)	Bare rooted	A large deciduous tree developing a magnificent, broad crown, the leaves with shallow, rounded lobes, turning reddish-brown in autumn. Inconspicuous yellow-green catkins among the young leaves. Prune after flowering. S/PS Ultimate height 4- 8m.

Averys hla 611 PS01 (see Generic Planting Plan, hla 611 03)					
9	<i>Prunus spinosa</i> (Blackthorn)	600-900mm	1 (1000)	Bare root	Deciduous spreading medium-sized deciduous tree with profuse, pure white double flowers in pendulous clusters. Leaves green, turning red and orange in autumn. (8-12m S)
9	<i>Taxus baccata</i> (Common Yew)	600-900mm	1 (1000)	Container grown	Small evergreen tree of rounded habit, with dense, linear leaves, insignificant flowers and, on female plants, conspicuous fleshy red arils surrounding the solitary seeds. No regular pruning necessary, but can be trimmed and shaped when required. S/PS/Sh Ultimate height 4- 8m
9	<i>Viburnum opulus</i> (Guelder Rose)	600-900mm	1 (1000)	Bare rooted	Deciduous shrub with opposite, palmately lobed leaves and clusters of small, often fragrant white or pink flowers, followed by red, blue or black berries. Fine autumn colour. Prune after flowering. S/PS/Sh Ultimate height 1-1.5m
9	<i>Vinca major</i> (Greater Periwinkle)	350-400mm	1 (1000)	Bare rooted	Vigorous evergreen sub-shrub forming a clump of erect stems bearing glossy ovate leaves and solitary violet-blue flowers 4cm wide in the leaf axils, with long rooting sterile stems making effective ground cover. S/PS/Sh Ultimate height 0.5m
<hr/>					
Bulbs					
28	<i>Alyssum montanum</i> (Mountain Madwort)		Plant in same species groups of no less that 10 per group		Evergreen prostrate perennial with yellow flowers (>50cm S)
28	<i>Anemone chionodoxa</i> (Glory of the Snow)		Plant in groups of no less that 10 per group		Bulbous attractive winter flowering carpeting white flowering. (>25cm S PS)
28	<i>Anemone hupehensis</i> (Japanese Anemone)		Plant in groups of no less that 10 per group		Deciduous spreading winter pink flower. (>50cm S PS)
28	<i>Centranthus ruber</i> (Red Valerian)		Plant in groups of no less that 10 per group		Woody based perennial with grey/green leaves and pink/white flowers in Spring to Autumn. (>1m S)
28	<i>Crocus tommasinianus</i> (Early Crocus)		Plant in groups of no less that 10 per group		Spring lilac to deep purple flowering. (>10cm S)
28	<i>Cyclamen hederifolium</i> (Ivy leafed Cyclamen)		Plant in groups of no less that 10 per group		Tuberous perennial providing colour often when little else is flowering, particularly in late winter or early spring. Hardy and ideal for naturalising under trees, on banks or in a shady border and planted in association with other early-flowering woodland plants such as snowdrops, winter aconites and primroses. (>10cm PS)
28	<i>Galanthus nivalis</i> (Snowdrop)		Plant in groups of no less that 10 per group		Bulbous attractive winter flowering perennial. (>20cm PS)
28	<i>Narcissus pseudonarcissus</i> (Common Daffodil)		Plant in groups of no less that 10 per group		Small yellow trumpet flowers. (>35cm S PS)
28	<i>Scilla sibirica</i> (Siberian Squill)		Plant in groups of no less that 10 per group		Bulbous perennial to 20cm in height, with narrow strap-shaped leaves and purplish stems bearing short racemes with 2-5 nodding, bowl-shaped bright blue flowers 1.5cm in width. (0.1-0.5m S PS)

Averys hla 611 PS01 (see Generic Planting Plan, hla 611 03)					
Grass seed mixes					General grass management: Grass areas to be cut back regularly during spring and summer (up to weekly at peak growing times). Wildflower areas to grow out to form spring and summer meadows with 6 cuts per annum allowing specific areas to grow up for the Spring and Summer.
53m2	Long Lawn Mix(Emorsgate EG22)	Sown at 25g per m2
