If Calling Please ask for: Robert Hermitage
Date: 22nd July 2022

Dear Sir/Madam,

**Town and Country Planning Act 1990 (as amended)
Town and Country Planning (General Permitted Development) (England) Order 2015
Application for Prior Approval under Schedule 2, Part 3, Class Q**

Prior Notification for Change of Use of Agricultural Building to residential (Use Class C3) to form 3no dwellinghouses.

Brookside Farm Dagbrook Lane Henfield West Sussex

Further to the above prior notification which was received on 30 May 2022, I am writing to confirm that **prior approval is required and granted**. The proposal can now proceed subject to the following conditions:

- 1 **Pre-Commencement Condition:** No development shall commence until the following components of a scheme to deal with the risks associated with contamination, (including asbestos contamination), of the site be submitted to and approved, in writing, by the local planning authority:
 - (a) A preliminary risk assessment which has identified:
 - all previous uses
 - potential contaminants associated with those uses
 - a conceptual model of the site indicating sources, pathways and receptors
 - Potentially unacceptable risks arising from contamination at the site.

The following aspects (b) - (d) shall be dependent on the outcome of the above preliminary risk assessment (a) and may not necessarily be required.

- (b) An intrusive site investigation scheme, based on (a) to provide information for a detailed risk assessment to the degree and nature of the risk posed by any contamination to all receptors that may be affected, including those off site.
- (c) Full details of the remediation measures required and how they are to be undertaken based on the results of the intrusive site investigation (b) and an options appraisal.

- (d) A verification plan providing details of the data that will be collected in order to demonstrate that the works set out in (c) are complete and identifying any requirements for longer-term monitoring of pollutant linkages, maintenance and arrangements for contingency action where required.

The scheme shall be implemented as approved. Any changes to these components require the consent of the local planning authority.

Reason: As this matter is fundamental to ensure that no unacceptable risks are caused to humans, controlled waters or the wider environment during and following the development works and to ensure that any pollution is appropriately addressed in accordance with Paragraph Q.2(1)(c) of Class Q of Part 3 of Schedule 2 of the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended) in addition to paragraphs 178 and 179 of the National Planning Policy Framework (2019).

- 2 **Pre-Commencement (Slab Level) Condition:** No development above ground floor slab level of any part of the development hereby permitted shall take place until a schedule of materials and finishes and colours to be used for external walls, windows and roofs of the approved building(s) has been submitted to and approved by the Local Planning Authority in writing and all materials used in the construction of the development hereby permitted shall conform to those approved.

Reason: As this matter is fundamental to enable the Local Planning Authority to control the development in detail in the interests of amenity and to ensure compliance with paragraph Q.2(1)(f) of Class Q of Part 3 of Schedule 2.

Schedule of plans/documents

The following plans and document were considered when making the above decision:

Plan Type	Description	Drawing Number	Received Date
Location & Details plan	and block, elevations and floor, existing	2205BR_R0_000	30.05.2022
Location & Details plan	and block, elevations and floor, proposed	2205BR_R0_001	30.05.2022

NOTE TO APPLICANT

The applicant is advised that this decision relates solely to whether the Prior Approval of the Local Planning Authority is required, it does not confirm that the proposal represents Permitted Development. The site lies within the Sussex North Water Supply Zone where Natural England has advised that water extraction cannot be concluded as having no adverse effect on the integrity of the Arun Valley Special Area Conservation (SAC), the Arun Valley Special protection Area (SPA) and the Arun Valley Ramsar Site.

It is a condition of Permitted Development (Article 3(1) of the Town & Country Planning (General Permitted Development) (England) Order 2015, as amended) that development likely to have a significant effect on a European Site "must not be begun" until an application has been made to Natural England for its opinion as to whether the development is likely to have a relevant effect. Following this an application must be made to the Local Planning Authority for its approval. No development must be begun until the developer has received written notification of the approval of the local planning authority. For further information on this process see Regulations 75 to 77 of the Conservation of Habitats and Species Regulations 2017 (general development orders).

The applicant is advised that any development commenced without compliance with Regulation 75 of the Conservation of Habitats and Species Regulations 2017 would be in breach of the GPDO and would be subject to potential future enforcement action.

Yours faithfully

Emma Parkes
Head of Development and Building Control

Additional Information:-

Community Infrastructure Levy (CIL)

Horsham District Council has adopted a Community Infrastructure Levy (CIL) Charging Schedule which took effect on 1st October 2017. **This development constitutes CIL liable development.**

If you have not received a Liability Notice from the Council within 1 month of the decision date please contact the CIL Team at cil@horsham.gov.uk

CIL is a mandatory financial charge on development. To avoid additional financial penalties, the requirements of CIL must be managed before development is commenced (including in the event of any successful appeal).

Payment must be made in accordance with the requirements of the CIL Demand Notice issued.

Appeals to the Secretary of State

If you are aggrieved by the decision to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under Section 78 of the Town and Country Planning Act 1990.

You must appeal within 12 weeks of the date of this decision notice for a 'minor commercial' (shop front) application, and within 6 months for most other types of planning applications. There are different timescale – usually 28 days – if an enforcement notice is/has been served for the same (or very similar) land and development. Please note, only the applicant possesses the right of appeal.

Appeals can be made online at: <https://www.gov.uk/planning-inspectorate>. If you are unable to access the online appeal form, please contact the Planning Inspectorate to obtain a paper copy of the appeal form on tel: 0303 444 5000.

The Secretary of State can allow a longer period for giving notice of an appeal but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.

The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.

If you intend to submit an appeal that you would like examined by inquiry then you must notify the Local Planning Authority and Planning Inspectorate (inquiryappeals@planninginspectorate.gov.uk) at

least 10 days before submitting the appeal. Further details are at <https://www.gov.uk/government/collections/casework-dealt-with-by-inquiries>

New postal addresses

If this permission relates to new dwellings, commercial premises or other buildings which will require a new postal address you should contact the Council's Street Naming & Numbering Department as soon as possible or before work commences on site. Further details are available on the Street Naming page on the Council's website or alternatively e-mail streetnaming@horsham.gov.uk or telephone 01403 215139.

Waste bins

It is the responsibility of the developer to provide bins for the development. If you are a developer and need to purchase bins, please email hop.oast.admin@horsham.gov.uk.
