HORSHAM DISTRICT COUNCIL CONSULTATION

| | |
|---|---|
| TO: Giles Holbrook | Horsham District Council – Planning Dept |
| LOCATION: | Land North of East Street, Ruper, West Sussex |
| DESCRIPTION: | Erection of 18 no. 2, 3 and 4 bedroom dwellings, (including 6no. affordable housing units), together with access from East Street, vehicle and cycle parking, landscaping and open space, and sustainable drainage. |
| REFERENCE: | DC/25/0523 |
| RECOMMENDATION: | Advice / No Objection / Objection / More Information / Modification / Refusal |
| SUMMARY OF COMMENTS & RECOMMENDATION: | |
| The application is supported by a desk based archaeological assessment produced by Pre Construct Archaeology that concludes that the site has an apparent low/uncertain archaeological potential for most periods and that further archaeological investigations are required to clarify the nature, extent and significance of any archaeological deposits. In this case it would be reasonable to secure the work with an archaeological condition | |
| MAIN COMMENTS: | |
| MAIN COMMENTS: | |
| The application is supported by a desk based archaeological assessment produced by Pre Construct Archaeology that has used appropriate sources, including the West Sussex HER, to determine that the site has a seemingly low potential for archaeological remains but that this may be influenced by the fact that there has only been a single previous investigation in the area and so the potential is better classified as uncertain. In order to clarify the nature, extent and significance of any archaeological deposits that may be present the report considers that further investigations may be required. I can confirm that this is correct and that in the first instance an archaeological field evaluation of the site would be appropriate which enable suitable mitigation measures to be developed for the site should significant archaeology be discovered. | |
| In this case I consider that it would be reasonable and proportionate to secure the required archaeological investigations and any subsequent mitigation that may be required by attaching the following condition should planning consent be granted. | |

ANY RECOMMENDED CONDITIONS:**Pre-Commencement Condition:**

i) No development shall take place until a programme of archaeological work has been secured in accordance with a Written Scheme of Archaeological Investigation which has been submitted to and approved in writing by the Local Planning Authority.

ii) The development hereby permitted shall not be commenced until the archaeological site investigation and post investigation assessment has been completed in accordance with the programme set out in the Written Scheme of Investigation approved under condition [i] and that provision for analysis, publication and dissemination of results and archive deposition has been secured and approved by the Local Planning Authority in writing.

Reason: As this matter is fundamental as the site is of archaeological significance and it is important that it is recorded by excavation before it is destroyed by development in accordance with Policy 34 of the Horsham District Planning Framework (2015)
