

ALL DIMENSIONS ARE TO BE CHECKED ON SITE:  
ALL DIMENSIONS ARE IN MM UNLESS STATED OTHERWISE  
ORIGINAL SIZE A3.

Roof and hanging tiles to new porch to match those of the main roof, as closely as availability allows.

Ridge line of rear dormers at the same height as the ridge line of the existing rear dormer.

Ground level varies

Ground level varies  
Steps at this end to be renewed but largely in same location as before.

Porch supported on oak post to match the posts supporting the overhang at the front of the garage

PROPOSED SIDE ELEVATION NORTH  
Part elevation / part section through garage

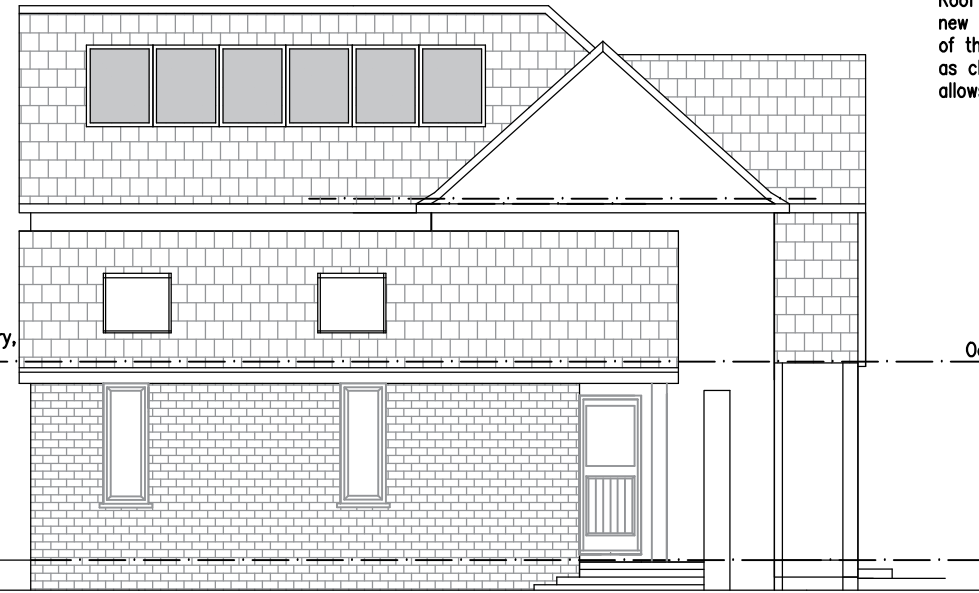

Solar panels, positioned on south facing roof slopes to have maximum efficiency. Battery bank to be installed in the existing garage, and also feed into the existing electric vehicle charging point,

Ridge line of rear dormers at the same height as the ridge line of the existing rear dormer.

Roof and hanging tiles to new porch to match those of the main roof, as closely as availability allows.

Velux windows in new mono-pitched are to line though with windows in flank elevation. These windows face the existing workshop, they do not look towards the boundary, but into the enclosed courtyard.

Face brickwork to match the brickwork used in the garden wall and garage, as close to the original house bricks as availability allows.

Oak post supporting porch.

PROPOSED SIDE ELEVATION SOUTH

Ground level varies  
Steps at this end to be renewed but largely in same location as before.

Oak post supporting porch.
