Subject: DC/25/1146 - No Objection - CONDITIONS

Categories: Consultations

Good evening,

HDC Drainage have **No Objection** in principle to the proposals for DC/25/1146 **however**, it is noted that the Flood Risk Assessment and Drainage Strategy (25087-FRA-RP-01 | C01, PURCELL UK) has used outdated rainfall methodology (FEH-13 not the required FEH-22) within all causeway calculations as shown within the appendices.

HDC Drainage politely request the applicant re-run their modelling using FEH-22 data. **This can be conditioned:** 'Flood Risk Assessment and Drainage Strategy must be revised to reflect changes to Causeway modelling using the requested FEH-22 rainfall methodology'.

Kind regards,

Amy Furness
Drainage Officer
