### Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	<ul style="list-style-type: none"><li>- Highway Access and Parking</li><li>- Other</li><li>- Overdevelopment</li><li>- Trees and Landscaping</li></ul>
Comments:	<p>This proposed development will put unacceptable and unsupportable pressure on:</p> <ol style="list-style-type: none"><li>1. Local sewage and water network and provision</li><li>2. The access is poor as rectory road is too narrow to support even more development. Additionally the main road through Ashington, London Road, is already too busy in peak times and there is already two other large developments planned/underway</li></ol>

for Ashington. Development already approved will place significant additional traffic in Ashington and cause delay and potentially increase risk to pedestrians

3. There is an insufficient infrastructure in Ashington to support the developments already agreed without further ones being approved
4. Sussex police do not support this application and do not have the resources necessary for further development in this area
5. This development would negatively impact on the environment, wildlife, trees and landscaping
6. This development is not in line with the neighbourhood plan

---

Kind regards
