

This architectural elevation drawing shows a two-story house. The roof is gabled with horizontal siding. The front facade features a central door with a transom window and a small rectangular window above it. To the left, there is a front porch supported by a single column, with a small gabled roof over the entrance. The house is finished with horizontal siding.

A detailed architectural line drawing of a two-story house. The house features a gabled roof with horizontal siding. The upper floor has two square windows, each divided into four panes. The lower floor has a square window on the left with a flower box underneath, and a double door on the right with a transom window. The entire house is clad in horizontal siding. The drawing is presented on a white background with a black ground line at the base.

This is a black and white architectural elevation drawing of a house. The house features a gabled roof with a chimney on the right side. A dormer window is located on the left side of the roof. The main body of the house has a small, square window on the left and a larger, rectangular window on the right. The drawing uses horizontal lines to indicate siding or texture on the walls and roof.
