Dear Case Officer,

[REDACTED]

Although I have already commented on this application via the planning portal (letter attached) I wanted to add two photographs taken today. They clearly show a car parked on a yellow line outside the proposed access to the construction site. This happens nearly every morning and afternoon and there has been little or no enforcement in the 18 years we have lived here. The shared driveway is used by ourselves and two other properties and comes out onto a dangerous bend with reduced visibility.

Although we are a close neighbour of the applicant and share the driveway, we did not receive a letter about this planning application from HDC and only learnt about it recently from a neighbour.

Kind regards
