Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	<ul style="list-style-type: none">- Design- Highway Access and Parking- Overdevelopment- Privacy Light and Noise- Trees and Landscaping
Comments:	I strongly object to this planning application, there has been complete disregard for Horsham's planning procedure's, this site

has already been built without planning permission and still there have been numerous applications for the same site, although each application submitted has slightly been changed even though the previous application submitted was refused. Planning procedures are in place for a reason they play a critical role in identifying what development is needed and where, what areas that need to be protected.

The environmental impact, has caused loss of biodiversity, damage to protected habitats, and impact on the surrounding wildlife. The rural landscape has been dramatically altered due to this unauthorised development.

There are lights on throughout the day and night, and this site is in close proximity to two listed buildings. The site entrance is on a blind bend.

Kind regards
