Hello,

I wish to object to the above application in the strongest terms.

The area concerned includes various amenities, in particular open countryside providing walking and nature observation opportunities for all ages but most importantly for younger generations.

These aspects, including sporting facilities such as golf, also contribute greatly to users health and wellbeing.

The negative impact on traffic and water resources is also worrying and the use of the term “affordable housing” cannot be backed-up in any realistic sense.

Finally, I also find it amazing that Horsham Council has the “right?” to impose these catastrophic proposals to within such a close proximity to Crawley town centre and environs.

Yours, most sincerely,

[REDACTED]
