Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Other
Comments:	Condition 5. Demolition Method Statement The statement does not adequately address the adjacent property Sarsens in terms of protecting the integrity of the property, services supplied to the property and security. The existing west end wall of Sweepers forms the physical boundary between Sweepers and Sarsens. The statement does not address how the boundary between the properties will be maintained to ensure continuous security of Sarsens during and

after the demolition. Additionally there is no mention of protecting the integrity of Sarsens and/or services related to Sarsens which exist close to the boundary and the west end of Sweepers.

We ask that additional clarity is provided to the above and that Sarsens, it's boundaries/fencing, and services are given adequate protection during the demolition and that our property remains secure throughout the process of demolition and construction.

Kind regards
