Reasons for comment:

Comments: Please read the objections and visit the site.

In summary:
Vehicle access is via a private drive. The deeds make it clear that access over that drive is only permitted for agricultural purposes. The owner of the drive has explicitly refused permission for it to be used in this way

The western field has no fences on two sides - it is insecure.

There have been repeated complaints about the noise and dog poo bags. The applicant has made it clear he has no plans to introduce any waste management. This is completely unacceptable.

Kind regards
