Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Highway Access and Parking - Loss of General Amenity - Other - Overdevelopment
Comments:	The development would cause significant harm to the High Weald National Landscape, of which the land in question is a part. The development would add to the already dire congestion at nearby Moorhead Roundabout.

The proposed development vehicle linked pollution.

There is no provision locally for the infrastructure demands that such a development would impose, in particular added demands on roads, medical facilities, schools and emergency services.

This application is a cynical attempt to capitalise inappropriately on a building development scheme that has already been turned down at the highest level, and for very good reasons which still stand.

Kind regards
