

- 1 Sports pitch (MUGA) rotated and repositioned within north-west field
- 2 Second grass sports pitch relocated from southern field to north-west field, allowing both pitches to benefit from access to the sports pavilion
- 3 Sports pavilion lounge increased in size and an additional office incorporated into the layout at Parish Council request
- 4 New pavilion storage outbuilding incorporated into the proposal
- 5 Relocated Local Equipped Area of Play (LEAP) now adjacent to sports pavilion (min 400 m² in area)
- 6 Reconfigured bin and cycle storage provision
- 7 Increased number of parking spaces dedicated to the sports pavilion. Parking bays have increased from 20 to 30 spaces
- 8 Updated position for the location of the pumping station
- 9 Allotment plots reconfigured to facilitate the incorporation of the second sports pitch
- 10 Relocated parking dedicated to allotment plots. Overall number of parking spaces remains at 18no total

- 11 Attenuation basin relocated from north-west field (eastern side) to the north of the proposed residential housing development. Existing scrubland and unmanaged undergrowth removed to accommodate the new basin as agreed with Horsham District Council
- 12 Pedestrian footpath link removed as a result of the north-west field proposal replan
- 13 Existing north/south hedgerow reinstated as the connection through to the sports pitches from the main residential housing development land parcel is no longer required
- 14 Potential areas where new proposed landscaping and vegetation could be introduced as part of the mitigation proposals for the loss of the unmanaged scrubland required to accommodate the new attenuation basin. Additional landscaping and vegetation will also be incorporated into the southern field where the second sports pitch was previously located
