Commenter Type:	Member of the Public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	- Design - Other
Comments:	I think this is a wonderful pavilion design which really enhances the site. The existing club buildings are poorly designed and do not, in my opinion, seem to be contextually suited to the area. The new pavilion offers a much more attractive building, with the use of brick, flint, slates and even the metal work used by the SDNP. The club will really benefit from a vastly improved facility such as this development and the sports provision will further help the

growth of the cricket team. I have seen in the planning document that it will be a sustainable construction that supports inclusive communities, which is great as I struggle, due to my disabilities, to access many buildings in Steyning, so this is greatly welcomed. I also seen in one of the documents that it will be using green technologies which must be the right approach for new buildings and it even has a lovely green wild flower roof for all the biodiversity.

Kind regards
