b) Requires further information		
c) Recommend grant permission subject to conditions		
d) Recommend refusal		
e) Discharge of Condition 7		Yes

Condition 7: Recommend discharge
Pre-Commencement Condition: No development shall commence until a lighting design scheme for biodiversity has been submitted to and approved in writing by the Local Planning Authority. The scheme shall identify those features on site that are particularly sensitive for bats and that are likely to cause disturbance along important routes used for foraging; and show how and where external lighting will be installed (through the provision of appropriate lighting contour plans, lsolux drawings and technical specifications) so that it can be clearly demonstrated that areas to be lit will not disturb or prevent bats using their territory. All external lighting shall be installed in accordance with the specifications and locations set out in the scheme and maintained thereafter in accordance with the scheme. Under no

circumstances should any other external lighting be installed without prior consent from the Local Planning Authority.

Reason: To allow the LPA to discharge its duties under the Conservation of Habitats and Species Regulations 2017 (as amended), the Wildlife & Countryside Act 1981 as amended and s40 of the NERC Act 2006 (Priority habitats & species) and Policy 31 of the Horsham Development Framework.

Comments
We have reviewed the Lighting Layout Rev 02 Drawing Ref 22358/02 (Tamlite Lighting, February 2025), Lighting Calculations (Tamlite, February 2025) and amended Lux Plans (The Ecology Co-op, February 2025) which have been submitted in order to discharge Condition 7.

We are satisfied that the submitted information includes the detail required by this condition.

Recommendations
Subject to implementation in full of the submitted details, we recommend discharge of Condition 7.

Please contact us with any queries.

Yours sincerely
