Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Highway Access and Parking
Comments:	My wife and I strongly object to this development application on the basis of the following reasons: 1. The proposed plan is in contradiction to the Henfield Neighbourhood Plan that restricted any development to single storey bungalows that would be available for local residents, particularly aging or disabled, to downsize and would provide close access to the high street without the need for vehicles. The proposed plan is for two-storey houses that would likely involve 2-

3 cars per property.

2. Vehicle access would be severely restricted during both the construction and occupation of the development and requires access over the herringbone block drive of The Daisycroft which is a private road. The road is owned by the residents of The Daisycroft and freehold ownership is clearly depicted on all resident's Title Deeds. The T-junction is very narrow, barely one lane wide and the likelihood of regular vehicle collisions is high. There is serious risk to pedestrians as vehicles would be continually mounting the pavement to negotiate the entrance to the development.

Kind regards
