Layspring, Lawyers Lane, Henfield
West Sussex
BN5 9QS

To whom it may concern.

I wish to place my objection to the proposed development at Sandgate Nursery, off West End Lane.

This site has been refused twice before and yet they try again.

As a resident of Lawyers Lane who has to use West End daily, the traffic has increased enormously since the recent addition of Bishop's Park and frankly the road infrastructure is already at its maximum. Adding another 50+ vehicles and the associated additional traffic, will create a dangerous and untenable access and safety issue.

I also take great offence to the fact that this site was not included into the Neighborhood Plan and yet being considered. As residents we all went through a democratic, official process to identify with Horsham DC the sites which would be supported for development. I think it would be disgraceful if this process is ignored.

Finally, we have just experienced one of the worst years of flooding in this area. To think that an 80 home development won't exacerbate this critical issue is foolhardy.

I strongly object to this development application. Please can we stick to the official, democratic plan to deliver the required and identified expansion.

Yours sincerely
