Dear Sir/Madam,

The Telecommunications Act 1984 as Amended by Schedule 3 to the Communications Act 2003

The Town and Country Planning (General Permitted Development) (England) Order 2015 [SI 2015, No. 596] as further amended by the Town and Country Planning (General Permitted Development) (England) (Amendment) (No. 2) Order 2016 [SI 2016, No. 1040] - Part 16 of Schedule 2 – Communications, Class A (Electronic Communications Code Operators)

I am writing on behalf of BDS Global. We are a planning partner of Virgin Media O2, working with them on the design and planning of their nationwide Network Expansion Project (NetEx), in order to increase the reach and quality of their existing Cable TV, Telephony and Superfast Broadband/Internet services.

Virgin Media O2 is currently considering the possibility of deploying NetEx in your area and has completed the advanced design and planning process. This letter hereby serves as notice of Virgin Media O2's intention to install above ground cabinets (in order to house electronic equipment) at the locations detailed on the attached plans and drawings, and ensure that the locations are agreeable to yourselves.

The dimensions of each type of proposed cabinet noted on the attached plans and drawings, are as follows:

FTTP – VMSD1/VMSD1i - 535mm (W), 330mm (D), 985mm (H)

If you have any concerns regarding the proposed position of any cabinet, please let me know as soon as possible, so that we may understand your concerns and possibly discuss alternative options.

Thank you for your consideration.

Yours faithfully,

Joseph Usher
