Dear Sir/Madam,

Town and Country Planning Act 1990 (as amended)
Town and Country Planning (Development Management Procedure England) Order 2015

Application for Approval of Details Reserved by Condition 1(a), (b) and (c) and Condition 2 of approved application DC/22/1036

Brookside Farm Dagbrook Lane Henfield West Sussex

The Authority has considered your application, and I can confirm that the submitted information is acceptable pursuant to the following condition(s):

1. **Pre-Commencement Condition**: No development shall commence until the following components of a scheme to deal with the risks associated with contamination, (including asbestos contamination), of the site be submitted to and approved, in writing, by the local planning authority:

   (a) A preliminary risk assessment which has identified:
   - all previous uses
   - potential contaminants associated with those uses
   - a conceptual model of the site indicating sources, pathways and receptors
   - Potentially unacceptable risks arising from contamination at the site.

   The following aspects (b) - (d) shall be dependent on the outcome of the above preliminary risk assessment (a) and may not necessarily be required.

   (b) An intrusive site investigation scheme, based on (a) to provide information for a detailed risk assessment to the degree and nature of the risk posed by any contamination to all receptors that may be affected, including those off site.

   (c) Full details of the remediation measures required and how they are to be undertaken based on the results of the intrusive site investigation (b) and an options appraisal.

   (d) A verification plan providing details of the data that will be collected in order to demonstrate that the works set out in (c) are complete and identifying any

requirements for longer-term monitoring of pollutant linkages, maintenance and arrangements for contingency action where required.

The scheme shall be implemented as approved. Any changes to these components require the consent of the local planning authority.

Reason: As this matter is fundamental to ensure that no unacceptable risks are caused to humans, controlled waters or the wider environment during and following the development works and to ensure that any pollution is appropriately addressed in accordance with Paragraph Q.2(1)(c) of Class Q of Part 3 of Schedule 2 of the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended) in addition to paragraphs 178 and 179 of the National Planning Policy Framework (2019).

Date of approval - 6th November 2024

2. **Pre-Commencement (Slab Level) Condition**: No development above ground floor slab level of any part of the development hereby permitted shall take place until a schedule of materials and finishes and colours to be used for external walls, windows and roofs of the approved building(s) has been submitted to and approved by the Local Planning Authority in writing and all materials used in the construction of the development hereby permitted shall conform to those approved.

Reason: As this matter is fundamental to enable the Local Planning Authority to control the development in detail in the interests of amenity and to ensure compliance with paragraph Q.2(1)(f) of Class Q of Part 3 of Schedule 2.

Date of approval - 6th November 2024

The development shall be implemented in accordance with the approved plans and details listed in the schedule below.

Schedule of plans/documents:

Plan Type	Description	Drawing Number	Received Date
Materials		2205BR_R0	11.09.2024
Supporting Statement	Covering Letter		11.09.2024
Supporting Docs	Preliminary Contamination Risk Assessment		31.10.2024

Notes to Applicant:
The applicant is advised that Condition 1(d) will require the submission of further details for the approval of the Local Planning Authority at a later date, with this submission needed to include details pertaining to the removal of asbestos from the site.

This letter constitutes a legal document which should be regarded as an addendum to the original planning application.

If you have any queries or require further information, please do not hesitate to contact the Case Officer.

Yours faithfully

Emma Parkes
Head of Development and Building Control
