Subject: Dangerous tree.

[redacted] [redacted]

Dear Mr Bush,
I live at 58 Ringley Road, Horsham, RH12 4AT, there is an oak tree overhanging our garden which is in a very bad state with dead branches and generally not in a good condition, my neighbour at 60 Ringley Road has applied to have this tree cut down and the trees along that line dealt with at the same time. We are very concerned about this tree as we had an incident on the 5 January 2025 an oak tree from Searles Yard fell onto our parked cars and completely wrote both of the cars off, this has been a very stressful and upsetting experience for myself and my husband, therefore you can see how anxious we are about this tree which overhangs our back garden and looks likely to fall at any time. We would be most grateful if you could give this your urgent attention, we know how busy you must be but when you can please can you let me know what happens next.
The trees in question are between my neighbour and a house in Foxleigh Close.
With many thanks in anticipation. Mrs Gillian Kemsley and Mr Nicholas Kemsley.
