T1 Oak -
Westwood,
Golding Lane,
Mannings Heath,
Maps and reasons

Symbiotic tree surgery has been requested to carry out some remedial pruning to a mature oak tree that over hangs the rear garden of number 13 rowans. The client is the resident of 13 Rowans and the tree is located in the garden of the Neighbour to the east “westwood” on Golding Lane. The tree has been previously reduced back from number 13 and has now regrown up to 3m on the western canopy.

Specification - T1 Oak (3rd party tree) - reduce back the overhang to number 13s garden by 2-3m on the eastern section of crown only shaping and balancing accordingly. Cuts to not exceed 100mm in diameter. Branch remaining length will be approx 7m.

This pruning is part of an on Gowing maintenance program at number 13 Rowans.
