Good morning mr Bush.

We reside at 21 oaklands park.

We are in receipt of your notification regarding the surgery and removal of the dead oak tree at number 20.

We fully support the application as the dead tree is a danger to life, and our adjacent homes should it fall.

We also support the maintenance and surgery to the other trees in this application as branches are often falling onto our property and some are of a size to cause injury or damage.

Our tree surgion has also advised that the canopy of our oak tree should be trimmed in a couple of years.

Regards
