Re DC/25/1269, Bucks Green

Rudgwick Preservation Society have noted the police response to this application, and their objections. They require a Police Speed Device to be used to aid traffic calming on what is widely known to be a road with excessive speeds in a built-up area, utilising Section 106 moneys.

We strongly support this should the application be permitted. it is very much in line with our general support for speed limits and traffic calming, etc, in the parish.
