Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Highway Access and Parking - Loss of General Amenity
Comments:	How does this new development protect our children at the school who use the woods for their forest school during the build and after it has completed? Will the area designated for the forest school not become a public area, meaning our children will encounter the public when out in the woods? Also, how does the developer plan on supporting the influx of cars from the development? As it stands the proposed road to access this is

very close to the school and can barely support the cars that run through it now, let alone roughly 360 MORE vehicles....

Kind regards
