Comments:

Southern water's latest proposal would see additional sewage transferred to the already overloaded Barns Green waste water treatment works. This would be a disaster as there are regular sewage spills already. Water companies seem to have a very poor record of telling the truth. So this will no doubt lead to an environmental and public disaster.

The increased volume of houses in this village would result in a traffic nightmare a loss of vital habitat for wildlife , loss of our local amenities like the shop and pub and change the character of this lovely village . All due to unnecessary development and corporate greed.

Please refuse this application.

Kind regards
