Thank you for the opportunity to comment on the above numbered planning application. This proposal has been considered by means of a desktop study, using the information and plans submitted with this application, in conjunction with other available WSCC map information. In respect to the above planning application I would provide the following comments.

Safe convenient passage must be maintained to the Public Footpath at all times. The Footpath should not be used for access purposes. Should safe convenient passage not be possible during works a temporary closure must be applied for via the WSCC PRoW website;
