Stance:	Customer made comments in support of the Planning Application
---------	---

Reasons for comment:	- Other
----------------------	---------

Comments:	This will be an amazing addition to the village, currently there is no play area in walking distance for any of the kids living in the area, the children at the preschool or children before or after going into the primary school. The space is already there sat looking sad & empty so why not use it for something beneficial to all the local family's.
-----------	--

Kind regards
