Reasons for comment: - Design

Comments: This project represents a central part to our wonderful community. Its virtue should be self evident to anyone reading this. The school and nursery have been key pillars of this community and has nurtured generations of children. These additions will ensure they can continue to serve the area for years to come.
On a side note perhaps certain organisations (such as this one) should be approved for fast track planning approval. This would be an easy way to reduce the burden on the council planning authority and avoid inflated bureaucracy choking council resources. So long as basic safety certification is met I can hardly

imagine potential objections to this.

I look forward to seeing these facilities and the joy they will bring!

Kind regards
