To whom it may concern,

I would like to inform you that we are using the highlighted blue areas attached for camping between the 24th of may and the 30th of september 2024, for no more than 42 consecutive days and totalling no more than 60 days. The site is located on New Wharf Farm, Ashurst, Steyning BN443AL. The areas highlighted surround our campsite so we can spread campers out and not have the main field so crowded.

The first area is for upto 30 tents spread out generously and no campervans/caravans. And the second area is for upto 20 tents and again no campervans or caravans. These numbers are maximums and it will be unlikely that they are ever reached and even less so that it will be at the same time.

All campers will be advised before arrival that there are no onsite bins available and everything brought must be taken home. Any rubbish left will be disposed of at New Wharf Farm in their commercial bins.

If you have any questions or I have missed any details, please let me know. [redacted]

Kind regards

Ed
