Dear Sir/Madam,

Proposal: A loft conversion with two small infill extensions. Removal of the existing roof structure, infilling two corners of the bungalow to create a square building. Erection of a steel frame to support the first-floor roof structure.

Site: 1 Amberley Road Storrington West Sussex RH20 4JB.

Thank you for your correspondence, please see our comments below regarding the above application.

No Objections

Southern Water has no objections to this proposal.

Please note, surface water should not be disposed of into a public foul sewer and must comply with the Hierarchy of H3 of the Building Regulations. For more details, refer to the Drainage and Waste Disposal: Approved Document H on the GOV.UK website.

Any new connections to the public sewerage system will require a New Sewer Connection application (also known as a Section 106) to be submitted and approved by Southern Water.

It is possible that a sewer now deemed to be public could be crossing the development site. Therefore, should any sewer be found during construction works, an investigation of the sewer will be required to ascertain its ownership before any further works commence on site.

For further advice, please contact Southern Water, Southern House, Yeoman Road, Worthing, West Sussex, BN13 3NX (Tel: 0330 303 0119)
