Dear Sir/Madam,

Proposal: Demolition of existing conservatory and erection of a single storey side extension.
Site: 59 Berrall Way, Billingshurst, West Sussex, RH14 9PQ.

Thank you for your correspondence, please see our comments below regarding the above application.

Proposed works involve demolition.

In order to protect and safeguard the existing water supply apparatus, Southern Water requests formal notification of any proposed demolition works prior to such works being undertaken.

Southern Water has determined that the flow rate for the above site will remain consistent, so capacity is not an issue.

Please note surface water should not be disposed of into a public foul sewer and must comply with the Hierarchy of H3 of the Building Regulations. For more details, refer to the Drainage and Waste Disposal: Approved Document H on the GOV.UK website.

Any new connections to the public sewerage system will require a New Sewer Connection application (also known as a Section 106) to be submitted and approved by Southern Water.

It is possible that a sewer now deemed to be public could be crossing the development site. Therefore, should any sewer be found during construction work, an investigation of the sewer will be required to ascertain its ownership before any work commences on site. If this happens, please call our Customer Service Desk on 0330 303 0119

For further advice, please contact Southern Water, Southern House, Yeoman Road, Worthing, West Sussex, BN13 3NX (Tel: 0330 303 0119)

Website: southernwater.co.uk or by email at: SouthernWaterPlanning@southernwater.co.uk

Yours faithfully,

Future Growth Planning Team
