

DELEGATED APPLICATIONS - ASSESSMENT SHEET

APPLICATION NO./ADDRESS:

DC/26/0490

Valewood, Valewood Lane, Barns Green, West Sussex, RH13 0QJ

DESCRIPTION:

Erection of a single storey side extension.

RELEVANT PLANNING HISTORY:

None

RELEVANT PLANNING POLICIES

The National Planning Policy Framework (NPPF)

Horsham District Planning Framework (2015):

Policy 25 - Strategic Policy: The Natural Environment and Landscape Character

Policy 26 - Strategic Policy: Countryside Protection

Policy 28 - Replacement Dwellings and House Extensions in the Countryside

Policy 32 - Strategic Policy: The Quality of New Development

Policy 33 - Development Principles

Barns Green and Itchingfield Neighbourhood Plan 2024 – 2031

Policy 13 – Sustainable design

Horsham District Local Plan (2023-40) (Regulation 19):

Policy 19: Development Quality

Policy 20: Development Principles

Policy 45: Replacement Dwellings and House Extensions in the Countryside

Parish Design Statement:

None

REPRESENTATIONS AND CONSULTATIONS RESPONSES

Where consultation responses have been summarised, it should be noted that Officers have had consideration of the full comments received, which are available to view on the public file at www.horsham.gov.uk.

Consultations:

Arboricultural Officer: Whilst the residential property is situated within the Vale Wood Ancient Woodland (subject of Tree Preservation Order no. 0733), the extent of existing curtilage and hardstanding within it means that the proposal has no foreseeable direct or indirect impacts upon the trees within the woodland. I therefore raise no arboricultural concerns in this respect.

Newt Officer: The proposed development is not considered to be relevant to the District Licensing Scheme in this case and we consider there would be no likely impact on great crested newts or their

habitats. I therefore have no comments to make at this time. If the proposal changes, then please seek further advice from me as required.

Southern waters: Southern Water has determined that the flow rate for the above site will remain consistent, so capacity is not an issue and no Southern Water assets will be affected. Therefore, Southern Water has no objections to this proposal.

Parish Comments:

Itchingfield Parish Council: Valewood is a substantial detached dwelling set in extensive grounds, which I have viewed in the recent past from the public foot paths that cross the land. Itchingfield Parish Council recommend for approval.

Representations:

None received

HUMAN RIGHTS AND EQUALITY:

The application has been considered having regard to Article 1 of the First Protocol of the Human Rights Act 1998, which sets out a person's rights to the peaceful enjoyment of property and Article 8 of the same Act, which sets out their rights in respect to private and family life and for the home. Officers consider that the proposal would not be contrary to the provisions of the above Articles.

The application has also been considered in accordance with Horsham District Council's public sector equality duty, which seeks to prevent unlawful discrimination, to promote equality of opportunity and to foster good relations between people in a diverse community, in accordance with Section 149 of the Equality Act 2010. In this case, the proposal is not anticipated to have any potential impact from an equality perspective.

PLANNING ASSESSMENT:

The application has been assessed on the basis of the submitted details, together with the planning history of the site and adjoining properties, available images and photographs obtained during site visit. These details were considered sufficient to allow the application to be properly considered and determined.

Character and Appearance

Policy 28 of the HDPF relates to house extensions and outbuildings in the countryside, stating that extensions should not be disproportionate to the size of the existing dwelling, and should be in keeping with the scale and character of the existing dwelling. The policy also states that the cumulative impact of existing extensions will be taken into account.

Policies 32 and 33 of the HDPF seek to ensure that development promotes a high standard and quality of design in order to enhance and protect locally distinctive characters. The policies also seek to ensure that the scale, massing and appearance of development relates sympathetically with the built surroundings, landscape, open spaces and routes within and adjoining the site, including any impact on the skyline and important views.

The proposal would involve the erection of a single storey side extension. The proposal would be of a modest scale and designed to be in keeping with the host dwelling. The hipped roof design of the proposal would complement the main dwelling and the single storey nature of the development would ensure the proposal appears subordinate to the main dwelling.

For the above reasons the proposal is considered to be of a design, form and scale which is appropriate to the character and appearance of the existing dwelling. The development would not harm the character or appearance of the wider area. It is therefore considered that the visual impact of the proposal is acceptable and would accord with the above policies.

Impact on Neighbouring Amenity

Policy 33 of the HDPF states that permission will be granted for development that does not cause unacceptable harm to the amenity of the occupiers/users of nearby properties and land.

Due to the remote location of the application site, it is considered that the siting and layout of the proposed extension and the resulting relationship with adjacent properties would be sufficient to prevent any unacceptable harm to neighbouring amenity.

Water Neutrality

A 2021 Position Statement from Natural England identified that it could not be concluded with the required degree of certainty that new development in the Sussex North Water Supply Zone would not have an adverse effect on the integrity of the Arun Valley SAC, SPA and Ramsar sites. As a consequence, and to comply with the legal duties set out in the Conservation of Habitats and Species Regulations 2017 (known as the Habitat Regulations), all new development since has been required to demonstrate water neutrality.

On 31st October 2025 Natural England formally withdrew the 2021 Position Statement, citing a package of measures that they were satisfied would safeguard the Arun Valley sites. Principal amongst these measures is a reduction in the Southern Water abstraction licence 'by March 2026'. However, given the licence change has not yet taken place Horsham District Council, as competent authority under the Habitats Regulations, cannot yet be certain that new development will not result in adverse impacts on the Arun Valley sites.

To ensure development can come forward as water neutral in the meantime, the Council has agreed with Natural England to use the significant water savings made by Southern Water in 2024/25 through their programme of leakage reduction (amongst other measures). This has generated some 3,240,000 litres per day of water savings that can now be attributed to new development without increasing water abstraction in the Arun Valley beyond baseline. These savings were previously to be used to launch the Sussex North Water Certification Scheme (SNWCS), however following the withdrawal statement SNWCS will no longer be launching. Natural England standing advice dated 10 November 2025 raises no objection to using these savings to enable development to come forward. The standing advice clarifies that it functions as Natural England's formal response pursuant to Regulation 63(3) of the Conservation of Habitats and Species Regulations 2017 to all relevant planning applications which seek to achieve water neutrality using the above Southern Water savings.

Officers have undertaken an Appropriate Assessment which demonstrates that the anticipated increase in mains water consumption from this development, alongside all other development granted since the 31st October 2025, will not exceed 3,240,000 litres per day.

Accordingly, Officers consider that the proposed development will not have an Adverse Effect on the Integrity of the Arun Valley Site, either alone or in combination with other plan and projects, thereby complying with Regulations 63 and 70 of the Conservation of Habitats and Species Regulations 2017, HDPF Policy 31, and paragraph 193 of the NPPF.

Biodiversity Net Gain

In accordance with the Biodiversity Gain Requirements (Exemptions) Regulations 2024, all householder applications are current exempt from the statutory requirement to demonstrate a 10% net gain in biodiversity.

Conclusion

The proposal is considered to comply with relevant local and national planning policies and is therefore recommended for approval.

Recommendation: Application Permitted

Conditions:

- 2 **Standard Time Condition:** The development hereby permitted shall begin before the expiration of three years from the date of this permission.

Reason: To comply with Section 91 of the Town and Country Planning Act 1990.

- 3 **Regulatory Condition:** The materials to be used in the development hereby permitted shall strictly accord with those indicated on the application form and approved plans.

Reason: To enable the Local Planning Authority to control the development in detail in the interests of visual amenity and in accordance with Policy 33 of the Horsham District Planning Framework (2015).

POSITIVE AND PROACTIVE STATEMENT

Statement pursuant to Article 35 of the Town and Country Planning (Development Management Procedure) (England) Order 2015. The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received, in order to be able to, where possible, grant permission.
