Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design
Comments:	The new proposal is an abomination. Horsham is known as a rural market town which brings people/day trippers/tourists into the town, this building will be one of the first things people see when they exit the station, it would be, and should be, designed to reflect the nature of a rural historic town. The plans and design can definitely be altered, without too much extra cost, to show this. Please consider these points when making your decisions, you will only get this one chance to get it right, to keep the local public

happy and to leave a proud and lasting building that will be testament to our beautiful historic Horsham.

Kind regards
