HERITAGE IMPACT STATEMENT

The property in question is within the Horsham Conservation Area.
The property has been extended under numerous applications.
The proposal is to replace the current single storey extension with a larger but more sympathetic extension.
The external elevations will be in matching brickwork and the roof will be in matching tiles.

10.0 SITE PHOTOGRAPHS

Image 1 showing existing garden elevation with removed extension shown in red line.

Image 2 showing existing garden side elevation.

Image 2 showing existing courtyard elevation. Although this has matching materials the roof pitch is at odds with the pitch of the host dwelling. The drawing below illustrates the deliberate matching of the roof angle and pitch to compliment the host dwelling.

In the image above other non original works will be removed including the upvc sliding doors.
