Non-Material Amendment(s) Sought

Please describe the non-material amendment(s) you are seeking to make

The non-material amendment principally relates to an increase in the size of wall thickness, both internal and external.

Please state why you wish to make this amendment

The reason for such being that it would enable the units to be constructed using modular systems particularly that provided by Hemspan. Hemspan is a bio-based construction method which delivers significant benefits to the sustainability of house building, such achievements are undertaken through the use of Hemp in the construction materials. So that the units can be constructed in such a manner there is a need to alter the thickness of the walls so that the panels, constructed of site, can be utilised in the build.
