Subject: Support for Planning Application DC/26/0025 - 12 Cambridgeshire Walk
Categories: Comments Received

Dear Meg Bayliss,

Reference: DC/26/0025

Proposal: Erection of a single storey garden building

Site Address: 12 Cambridgeshire Walk, Faygate, West Sussex, RH12 0DD

I am writing as the resident of 10 Cambridgeshire Walk to formally submit my support for the planning application regarding the erection of a single-storey garden building at the neighboring property, 12 Cambridgeshire Walk.

Having reviewed the proposal, I believe the application should be approved for the following reasons:

Design and Appearance: The proposed single-storey scale is modest and sympathetic to the character of Cambridgeshire Walk. It appears well-integrated with the existing garden environment.

Impact on Amenity: As a direct neighbor, I have no concerns regarding overshadowing or loss of privacy. The height and positioning of the building are appropriate and do not negatively impact the light or outlook of my property.

Use of Space: I believe the addition of this garden building is a reasonable improvement to the property that maintains the residential nature of our neighborhood without causing any noise or disturbance.

I fully support this application and believe it is a positive addition to our street. I would appreciate it if you could take these comments into account during the determination process.

Yours sincerely,

[REDACTED]
