

[REDACTED]. My comments are:

- The proposed wall would be built adjacent to my kitchen window. That end of the kitchen is already quite dark so I would be concerned if there is any loss of existing light. There is another window on the first floor.
- I wish to retain the existing privacy in my back garden and therefore request that the new windows at the first floor rear of the property are of a type/ position that do not overlook my back garden.
- Could all noisy building works be confined to school hours [REDACTED]
[REDACTED]

Photos of my property can be supplied If that would be of assistance.
